Save the world This feature will let you save your world once the download has completed, so that you can resume from where you left off whenever you want to play again thereafter.",

Always back up your world:Before installing a mod it is always a good idea to save your world before you do anything else. This way, if something does not work out and you need to uninstall the mod or require a clean save, you will not lose everything. This is very important and we cannot stress enough how important this step is for most players! Install it correctly:Installing mods is different for each of them because they all have different requirements and rules about what files they will change in Minecraft. For example, some mods will just replace certain files while others will replace a lot more. Make sure to read the mod's description and the developer's website and follow them accordingly. If you trust the mod's description or its developer in general then it is probably safe to install it. If you are unsure at all, it would be a good idea to examine each of your files before installing so that you can see if anything has been altered by this mod.",

The game was originally named "Pixelmon"™ by the creator of Minecraft, Markus Persson (also known as Notch). It was inspired by crafting games like Little Big Planet and the popular multiplayer game World of Warcraft. Minecraft, like World of Warcraft, is a game that is played in a virtual world. It does not have a storyline or character progressions like most RPGs do. Instead, Minecraft offers players the possibility to build almost anything they want. You can create the same things that you see in Minecraft with your own imagination and creativity.",

There are three different ways in which you can connect to a server: first is by using a

computer directly connected to the internet through LAN (Local Area Network) port, second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",

In Minecraft, players are able to build huge structures where they could live for days or even weeks without seeing another player on another computer unless you far away from their view range. The only way to become visible on the server is by breaking certain blocks such as fences and most trees which causes a noise that will attract other players to your location. If the player is the first one at a piece of land upon joining, then it will be owned by them. If another player sees that first person at the location and decides they want it, they can kill them and then claim ownership.",
